

Summer 2018 Internship (Quantitative Research & Trading) – Singapore

Quantedge is a hedge fund that manages \$1.4 billion and has an 11-year track record of outstanding performance in the asset management industry. We have over 40 employees located in Singapore and New York City. Our organization is flat, non-bureaucratic, and results-oriented with significant opportunities for advancement for driven team players. We invest heavily in the career development of our employees whilst maintaining a generous work-life balance.

We seek exceptional individuals to join our Summer 2018 Internship Program in Quantitative Research & Trading. This internship is for penultimate year undergraduate students who have strong technical skills. You will be involved in building quantitative trading models and will have the opportunity to contribute to the fund's investment strategies. Excellent interns may be offered permanent positions to start in mid-2019, post-graduation.

Preferred Qualifications:

- A major in a quantitative discipline: Mathematics, Physics, Computer Science, Engineering, Finance, Economics or a related field
- Expected graduation date: 2019
- Team player, attention to detail, self-directed learner, strong work ethic
- Strong interest in quantitative models and empirical data analysis

Location:

Singapore

Application Information:

We are an equal opportunity employer. Candidates must be authorized to work in Singapore. Please submit your resume, high school Year 5-6 and A-Level/IB results and University transcripts via email to Internship.SG@quantedge.com. Only shortlisted candidates will be notified.

If you are spending the coming Winter break (Dec 2017) in Singapore, please indicate that in the body of the email so we can arrange for an in-person interview at our Singapore office.
