

## **Quantedge Capital 2025 Analyst Recruitment Software Engineering - Singapore**

Quantedge manages more than USD 4 billion and has an 18-year track record of outstanding performance. We have offices in Singapore and New York City. Our organization is flat, collaborative, and results-oriented, offering significant opportunities for advancement to driven team players. We invest heavily in the career development of our employees, maintain a sustainable work-life balance and offer generous compensation and benefits.

The Technology team is looking for motivated fresh graduates with strong analytical and software engineering skills. You will design and implement complex software systems that power a world-class hedge fund as part of a high-caliber team of software and investment professionals.

Interviews will be conducted on a rolling basis, with shortlisted candidates invited for a paid three-week assessment in April, May, or June. Following the assessment period, successful candidates will be offered a full-time position upon graduation.

### **What We're Looking For**

- A strong interest in technology and a passion for solving challenging problems using first-rate programming and engineering skills
- Proven ability to write high-quality, clean, and maintainable code following engineering best practices
- Excellent verbal and written communication abilities, with the capability to explain engineering trade-offs to fellow developers and other stakeholders
- A collaborative mindset with attention to detail, a self-directed learning approach, and a strong work ethic
- Expected graduation up to December 2025

### **Location**

Singapore

### **Application Instructions**
